Section A Reading – 20 marks	
Q1.	<p>Read the following passage carefully: Walter Elias "Walt" Disney was born on December 5, 1901, in Hermosa, Illinois. He lived most of his childhood in Marceline, Missouri, where he began drawing, painting and selling pictures to neighbours and family friends. Disney attended McKinley High School in Chicago, where he took drawing and photography classes and was a contributing cartoonist for the school paper. At night, he took courses at the Chicago Art Institute.</p> <p>When Disney was 16, he dropped out of school to join the army but was rejected for being underage. Instead, he joined the Red Cross and was sent to France for a year to drive an ambulance. When Disney returned from France in 1919, he moved back to Kansas City to pursue a career as a newspaper artist. His brother Roy got him a job at the Pesmen-Rubin Art Studio, where he met cartoonist Ubbe Eert Iwwerks, better known as Ub Iwerks. From there, Disney worked at the Kansas City Film Ad Company, where he made commercials based on cutout animation. Around this time, Disney began experimenting with a camera, doing hand-drawn cel animation, and decided to open his own animation business. From the ad company, he recruited Fred Harman as his first employee.</p> <p>Walt and Harman made a deal with a local Kansas City theater to screen their cartoons, which they called <i>Laugh-O-Grams</i>. The cartoons were hugely popular, and Disney was able to acquire his own studio, upon which he bestowed the same name. Laugh-O-Gram hired a number of employees, including Harman's brother Hugh and Iwerks. They did a series of seven-minute fairy tales that combined both live action and animation, which they called <i>Alice in Cartoonland</i>. By 1923, however, the studio had become burdened with debt, and Disney was forced to declare bankruptcy.</p> <p>Disney and his brother, Roy, soon pooled their money and moved to Hollywood. Iwerks also relocated to California, and there the three began</p>

	<p>the Disney Brothers' Studio. Their first deal was with New York distributor Margaret Winkler, to distribute their <i>Alice</i> cartoons. They also invented a character called Oswald the Lucky Rabbit, and contracted the shorts at \$1,500 each.</p> <p>1.1 Answer the following questions briefly:</p> <p>(a) What did Walt Disney learn in his childhood?</p> <p>(b) Why was Walt not selected in the army?</p> <p>(c) How did Walt's brother help him in Kansas?</p> <p>(d) What did Walt learn at Kansas City Film Ad Company?</p> <p>(e) Name the first employee of Ad Company.</p> <p>(f) What deal was made with the Kansas City theatre?</p> <p>(g) Write briefly about Alice in the Cartoonland.</p> <p>(h) What was the deal made with Margaret Winkler?</p>	8
Q2	<p>Read the following passage carefully:</p> <ol style="list-style-type: none"> 1. Maybe you're bored of bananas, apples and grapes and need a fresh produce pick? A nutrient-rich serving of kiwifruit may be just what you need. A serving of kiwifruit (2 kiwis) has twice the vitamin C of an orange, as much potassium as a banana and the fiber of a bowl of whole grain cereal—all for less than 100 calories! 2. The fuzzy fruit is sky-high in both soluble and insoluble fiber, both of which are essential for promoting heart health, regulating digestion, and lowering cholesterol levels—that's a winning trifecta. Kiwi fruit has also been considered a “nutritional all-star,” as Rutgers University researchers found that kiwifruit has the best nutrient density of 21 commonly consumed fruits. 3. Along with vitamin C, kiwi fruit are rich in many bioactive compounds that have antioxidant capacity to help to protect against free radicals, harmful by-products produced in the body. If you want clean energy, think of kiwifruit because they're rich in magnesium, a nutrient essential to convert food into energy. 4. A kiwi fruit also doubles as a peeper-keeper by supplying your eyes with protective lutein, a carotenoid that's concentrated in eye tissues and helps protect against harmful free radicals. Kiwifruit is also packed with blood pressure-lowering potassium. In fact, a 100-gram serving of kiwifruit—that's about one large kiwi—provides 15% of the Recommended Daily Allowance (RDA) of potassium. 5. Kiwi fruit has been growing in New Zealand for over 100 years. Once the fruit gained in popularity, other countries started to grow them including Italy, France, Chile, Japan, South Korea and Spain. At first, kiwis were referred to as 'Yang Tao' or 'Chinese Gooseberry,' but the name was ultimately changed to kiwifruit so that everyone would know where the fruit came from. 	

	<p>6. A ripe kiwi fruit will be plump and smooth-skinned, and free of wrinkles, bruise, and punctures. If you find that your kiwi is a little too firm after buying it, simply let it ripen at room temperature for three to five days. The firmer the fruit, the more tart it will taste. To speed up the ripening process, you can also place kiwis in a paper bag with an apple or banana. If you want to store the fruit longer, you should keep in a plastic bag in the refrigerator.</p> <p>2.1 Answer the following questions briefly:</p> <p>(a) What does a serving of kiwi offer?</p> <p>(b) Why has kiwi been considered a “nutritional all-star”?</p> <p>(c) How is kiwi fruit helpful for the eyes?</p> <p>(d) How can you make a kiwi fruit ripen?</p> <p>2.2 Do as directed:</p> <p>(a) The word ‘compound’ means:</p> <p>(i) calcium (ii) mixture (iii) texture (iv) vitamin</p> <p>(b) The word ‘concentrated’ means’:</p> <p>(i) strong (ii) liquid (iii) large (iv) replace</p> <p>(c) The word ‘bruises’ means:</p> <p>(i) roughness (ii) desolation (iii) popularity (iv) discoloured</p> <p>(d) The word ‘tart’ means:</p> <p>(i) sweet (ii) salty (iii) bitter (iv) nutty</p>	<p>2 X 4 = 8</p> <p>1 X 4 = 4</p>
